

mgmt

github.com/purpleidea/mgmt

Default architectures

Problems?

SPOF

What if server/orchestrator is unavailable? 🙄

Scale

 I'll ssh all my clusters at the same time 

Real Time?

**Please waiting the next run to see our
changes... ⌚**

Demos

Default Real Time Management

Resources Export Between Nodes (etcd)

Running Service (systemd)

(very) young

- current version is 0.0.11

Friendly

- open community/dev ([@purpleidea](#))
- [#mgmtlove](#) github issues

Thanks
